Certified Top Quality polycarboxylate superplasticizer

Certified Top Quality polycarboxylate superplasticizer is a newly and friendly environmental superplasticizer. It is a concentrated product, best high water content, high slump retention ability, low alkali content for the product, and it having high strength gained rate. It can be widely used in premix of common concrete, gushing concrete, high strength and durability concrete. Especially it has excellent performance in high strength and durability concrete.

property

Certified Top Quality polycarboxylate superplasticizer with the good water solubility, our environmental-friendly product always keep its stabilization in the water and shows good compatibility with other components. As one of the most important materials of cement water-reducing agents, the high efficiency particle dispersion performance is not only one of its properties, it also can increase the water reducing rate and durability with just a small amount.

Index

Item	Unit	Standard
Appearance	/	White or light yellow powder
Density	kg/m ³	500±50
pH (23℃)	/	6.0±1.0
Solid Content	%	97.0±1.0
Moisture content	%	≤3.0
Water Reducing Ratio	%	≥25

Cl ⁻	%	≤0.02
Alkali content	%	≤0.3

Fields of Application

- 1.Cement based and gypsum based self-leveling mortar.
- 2.Grouts,special early strength mortar, repair mortar, grouting agent, grouting materials etc.
- 3.Water-proofing materials, refractory materials.
